

NEW LIFE HOME TRUST UK

Raising funds in the UK to support the rescue and care for abandoned babies in Kenya

WHO ARE WE?

New Life Home Trust UK (NLHT UK) are a UK-based charity supporting the work of our partner charity NLHT in Kenya who rescue and care for abandoned babies, some of whom are HIV positive.

NLHT Kenya aims to find loving homes for them through adoption, where possible in Kenya, but also internationally. There are four homes for babies and children across Kenya, in Kisumu, Nairobi, Nakuru and Nyeri, each of which we help to support financially.

When you sponsor a cot, it allows us to keep cots open for many abandoned babies across Kenya. Your donations help to cover the costs of all the babies' physical and emotional requirements, including care, food, clothes, toys and medicine.

OUR IMPACT

Babies at the Kenyan homes are rescued from the slums, abandoned, or taken into our care for safety.

Over the past 20 years NLHT have rescued and cared for over 1,700 babies giving them all they need to thrive until they can be adopted or re-united with their biological family.

GROWING UP...

Nearly all the babies have left NLHT before their 3rd birthday. Those who have not yet been adopted 'graduate' to our toddler home in Nakuru.

If children have not been adopted before they are five we move them to "family homes" where they grow up in groups in a family unit.

Partner with us today and give the gift of new life:

MISSION STATEMENT

RESCUE abandoned and other extremely vulnerable babies (0-6 months old).

Give high standards of **CARE** to the children in our Homes (spiritual, emotional, educational, physical, medical and social).

PLACE the children into loving family situations (biological family reintegration, adoption or foster care).
